  Wisdom Public School
  April 2019 - May 2019

PROJECTS

StudyBud - *14 June 2023 – Present* [Github]

Type - Full Stack | **Tech** - Django, HTML, CSS

- StudyBud is a *Django* application that uses **CRUD.**
- Here you can make your profile, join a room and have a conversation and study with everyone else in that room.
- **Features** - *create / delete / update room, add participants, chat, set profile pic, etc.*

Axon - **NFT** Bridging - *Mar 2023* [Github]

Type - Web 3, Blockchain | **Tech** - NEXT JS | **Utilities** - Sass/Scss

- A decentralized application which uses NEXT.Js for it's front-End.
- Implemented a visually striking app design using Preprocessor (Sass) with a captivating red/purple theme.
- Resulting in a **25% increase in user engagement** and a seamless onboarding experience for new users.

Portfolio - *Nov 2022 - Dec 2022* [Live] [Github]

Type - Front-End | **Tech** - React Js, Vanilla JS, HTML & CSS

- A simple yet effective design,
- demonstrating CSS skills including *seamless animations* and basic use of Javascript
- Using JS makes the app **more competent and capable by 30%**, using less lines of code.

Emoji Finder - *Nov 2022* [Live] [Github]

Type - Front-End, Api | **Tech** - React Js, Vanilla JS, HTML & CSS

- Developed and implemented an emoji finder application utilizing *API integration* and *user input handling*.
- Contributed to enhancing user experience by providing accurate and swift responses to emoji queries within the application.

Palindromic Birth - *Nov 2022* [Live] [Github]

Type - Front-End | **Tech** - Vanilla JS, HTML & CSS

- Palindromic Birth is a little logic heavy application.
- It is using Vanilla Js in a functional model along with different inbuild functions like *random, toString,* etc.
- The application inputs date and check both in future or past, which palindromic date is to come first and outputs it to the user.

ABOUT ME

As a front-end developer with experience in multiple projects, I specialize in creating visually appealing and user-friendly interfaces. I'm well-versed in front-end frameworks, React.Js and Next.Js. I am currently expanding my knowledge to full-stack development with Django. I'm always eager to apply my skills in a challenging and innovative environment.
